

## INFORMATION > HEADSHOTS

Thank you for taking interest in my headshot photography!

---

### WHAT CAN I EXPECT FROM THE SHOOT?

Bring old headshots and examples of other headshots that you like so that we can talk about what you want from your new headshots. After we get to know each other a bit, finish make-up and hair and pick out clothing, we'll start shooting. All photos are done with natural lighting. Combined with simple backgrounds, natural light has an airbrushing quality that creates a perfectly natural look, making the viewer look straight to you, in your eyes. Authenticity and immediate recognition are two very important elements of your headshot. Although I have listed a suggested image range on the pricing sheet on the next page, I don't put a time or image limit on your photoshoot because I want to make sure you get the photos you want. Bring your iPod so that we can jam to your favorite tunes.

---

### WHAT SHOULD I WEAR?

I recommend bringing a few different options so that we can decide together what your best 2-3-4 looks will be. Focus on color that brings out your eyes. Solid earthtones and jewel tones (this does not mean bedazzled...jade, purple, coral, rich blues) are good. Avoid busy patterns or prints. Layering is a good idea as well, but do not bulk yourself up and watch the neckline of jackets. Make sure you represent **you** in your outfits as well as targeting the roles in which you wish to be cast. Makeup should be natural – even guys may want to bring a little cover up and chapstick. Girls, only wear eyelashes if you are really good at applying them! If you would like to have a professional makeup artist/hair stylist, please let me know when you book your appointment. Makeup Artists range from \$50 for men - \$100 for women.

---

### WHAT HAPPENS NEXT?

Throughout the session we will look at the images on the camera to get a feel for the product. Within 48 hours, you will get a website of your filtered, color-corrected proofs. You may share this site with others to help you decide. From there, the decision is up to you as to which photos you would like edited/retouched. I will edit the selections and make a copy of a CD your final headshots, print-ready. If you would like me to print multiples for you, pricing is below. Photos will be shipped to your door. I also offer services including resume design/printing, comp cards, business cards and web design. Ask for more details if you are interested.
